

# Tranquil Garden Design

At

Four Winds Nurseries  
Designs with Elegance

## Planning

If you require advice on planning your garden then we offer a service where one of our fully trained members of staff will come out to your home and assess your requirements. During this visit we will be able to advise on what type of plants would be suitable for the type of you have and the places for your chosen plants to be planted within your garden. Some questions you may want to ask yourself are?

- What do I want from my garden?
- What style am I looking for?
- What colour scheme are you trying to achieve?
- Do I want a low maintenance garden?
- Do I want lots of space for the children to play?

When you are happy with what you are wanting from your garden then we are able to produce a written report to help you achieve your goals. If you wish we can then take it a stage further by having your ideas transferred to a scale drawing.

## Design

Have you ever thought of giving your garden a complete makeover? To do this properly it is well worth the investment in having a professional scale drawing produced of the garden you require, showing exactly what particular plants you need to be planted and where to enable you to achieve the style you want. This then allows you, or a professional landscaper to look at the plan at anytime and be able to reproduce what's on paper into the real thing.

## Planting

Here at Four winds we offer a full planting service whether it's a single plant, a border or a whole garden. We can deliver your chosen plants and plant them at the same time. Leaving it clean and tidy on completion so that, all you have to do is sit back and enjoy.

Please ask for more information about this service from one of our friendly helpful members of staff.
